<p>Solunar table times <u>underlined</u> at the end of each line. Table starts with overall rating of "E"=Excellent, "G"=Good, "N"=Normal, or "P"=Poor followed by "M" = major activity time of about 2 hours or "m" = minor activity time of about 1 hour. Example: 12/6 reads <u>G m 4:00p</u> meaning the overall rating is Good with a period of minor activity peaking at 4:00 pm. "Excellent" and "Good" ratings normally occur close to the New Moon.</p>
